Thank you for taking an interest in James Cars

We hope you have been informed about our services from one of our representatives but just as a reminder we have outlined some information we hope may be helpful

Our Company..... James Cars is a family run business based in Whitley Bay and cover the whole of the North East area. We specialise in Weddings and take great pride in offering the highest levels of quality and service.

Our Prices..... Your wedding day is unique only to you!! We do not offer set wedding car packages and prefer to tailor our service to meet with your individual requirements. For example, one car may be able to make two trips if time allows and we are more than happy to offer advice and guidance to ensure your transport runs to perfection.

Our Cars..... In gleaming Silver with Luxurious leather interiors, our Mercedes cars have for many years been the preferred choice for luxury and comfort, our S-Class Limousines have been especially chosen for the generous amount of rear seat space and legroom which can accommodate the fullest of bridal gowns.

Attention to Detail..... You can be sure your cars will arrive at your door in plenty of time to leave for the ceremony, this will also allow your photographer time to capture your departure. You will also have peace of mind knowing your cars are waiting for you.

To compliment your wedding day celebration our cars are dressed with Flowers, Ribbons & Bows, in traditional white, or a colour of your choice if available.

Our Chauffeurs are professional & experienced people and will be smartly dressed. You can also be sure your Chauffeur will be on hand to help usher your guests into the correct vehicles and to liaise with your photographer to capture the moment.....
